 Mohd1999-collb

To work as a software developer in a reputed organization where I can apply my technical and analytical skills to create innovative solutions that address real-world challenges and enhance user experiences and contribute to the growth of the company. I am seeking an opportunity to make a meaningful impact in a forward-thinking of organization.

EXPERIENCE

Web Development Intern

Institute of Engineering and Technology (IET)

 Link

 January 2023 – May 2023

- Created a React Js project, connected it to Firebase for user sign-in and data storage.
- Designed the user interface, added features like user authentication using OTP verification, booking drivers, managing booking and created a stylish look using Css or UI libraries.
- Collaborated with a partner, making updates based ongoing feedback to enhance the project functionality.

PROJECTS

Youtube Lite

React Js, Tailwind Css, Rapid API

 Link

- Developed a YouTube clone project using React Js and integrated Rapid API to retrieve and manage video data.
- Using Rapid API to fetch real-time video content, including video details, thumbnails, and views, ensuring up-to-date and accurate information.
- Designed a responsive and user-friendly web interface, some of the core features that typically includes a video player, likes, video recommendations, and a search feature.
- Gained experience in front-end web development, including React.js, API integration, state management, and component architecture.

DOSIFY COVID-19 VACCINATION BOOKING CENTER

Java, Spring Boot, JPA Hibernate and MySql

 Link

- A Web page which facilitates the process of scheduling and managing appointments for individuals user to receive COVID-19 vaccines.
- All the CRUD operations can take place like (get, post, delete and update) using postman for an API request.
- It includes the different type of filter API's features such as user not taken even a single dose, user fully vaccinated, user taken dose1 not taken dose2, doctor at particular center, particular center type etc.
- Implemented a comprehensive email notification system, developed automated email triggers for various stages.
- Integrate the feature to configure our web page to serve the Swagger UI using the dependency and driver.

EDUCATION

Master of Computer Application (Mca)

Babasaheb Bhimrao Ambedkar University (A Central University), Lucknow

 July 2020 – June 2023

Bachelor of Science (B.sc)

Mumtaz P.G. College, Lucknow

 July 2017 – June 2020

TECHNICAL SKILLS

Programming

Java

JavaScript

Libraries/Frameworks

Spring Boot

JPA Hibernate

React Js

Bootstrap

Tailwind Css

Familiar

DSA

Html

Css

MySql

OOPs

DBMS

Software/Version Control

Git and Github

Postman

Swagger UI

VS Code

IntelliJ Idea

Netbeans

COURSEWORK

- Pursuing a Full Stack Web Development course from AccioJob, which is an online learning platform recognized by NSDC.
- In this course learned a lot of skills and technologies such as Java, DSA, MySql, OOPs Concept and aptitude.

ACHIEVEMENTS

- Five star rating in C programming and Sql on HackerRank Platform. [Link](#)
- Leetcode : Solved 200+ Problems [Link](#)
- GFG : Solved 220+ Problems [Link](#)
